

1888 Narrow-Gauge Boxcar SP 84 Gets A Protective “Shower Cap”

On December 8, 2012, our beloved 1888 narrow gauge boxcar (SP 84) got a “shower cap” that will protect her roof from the elements until we can begin major restoration.

Lewis White, owner of Carson Tahoe Marine (and a professional!), completes shrink-wrapping of the boxcar with a propane torch.

A group of HSDV volunteers assisted Lewis White and Bill Watts of Carson Tahoe Marine in shrink-wrapping the boxcar roof. Carson Tahoe Marine, located on Hwy. 50E at Hwy. 341 in Mound House, donated their services to help HSDV protect the boxcar.

HSDV Volunteers (on left) included Colin Crowley, John Crowley, Stony Tennant, and Gary McElroy (not shown), who assisted Lewis White and Bill Watts (on right) of Carson Tahoe Marine in Mound House.
